

Conduct your own **DISCOVER HOMESCHOOLING** Orientation

As a homeschooling community, we are in a fortunate position to guide other parents in learning about this viable option for their children's schooling. Your circles of influence may turn to you for guidance regarding home education given this pandemic so we've put together this primer to equip you to guide them.

Here are four easy steps to conduct your own Online Orientation:

1. Set up a video call on your platform of choice (Zoom, Facebook Messenger, Skype, etc). The best way to kick off your online conversation is by encouraging your parent friends through stories of your personal homeschooling journey.
2. Lead your friends to <https://homeschool.global/hgmeinquiry> where they can sign up for the HG Orientation and they can watch it all at the same time.
3. After watching the 30-minute video, conduct a Q&A session using the attached FAQs, Info Pack, and your own HG experiences.
4. Guide them with next steps (FAQs) and to the HG website to complete enrollment.
